NISI GTX50 Spec Sheet

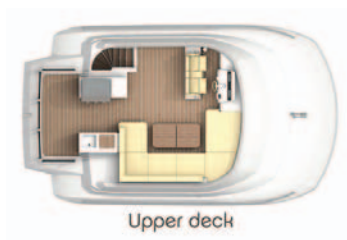

GTX50 – Exponentially Exhilarating

Our newest model in the XPRESSO series, the first GTX50, was successfully launched and delivered to her owners this past June. Hulls #2 is sold, delivery scheduled for FALL 2014. New build slot reservations are being taken now.

The highly anticipated GTX50 is the first multi-hull to focus on the desires of traditional monohull owners. Drawing on demands from traditional yacht owners and NISI's own megayachts, GTX50's arrival brings unprecedented styling, strength, large social areas, and performance.

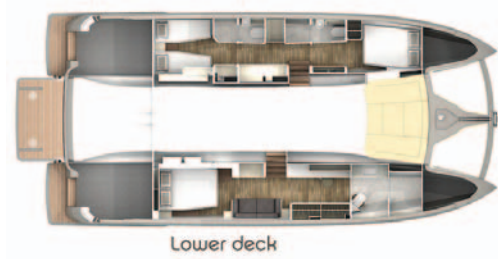

Concept and design come from the engineering team at NISI Yachts with naval architecture by Setzer Yacht Architects. Based on established interest from the international yachting community, GTX50's mission is to deliver exceptional and efficient offshore performance with unprecedented exterior and interior spaciousness.
